

Hillside Cemetery, Scriba, NY

The following list was assembled from various sources, including notes I took while mapping the cemetery. Where there are blank death dates or lot numbers it may be that the person is not actually buried there. Some of the names are of people that lots were sold to, so use judgment when using this list. Corrections and additions are encouraged so that this list can be more helpful for those researching their history.

For comments or question, contact me at k2qqy@yahoo.com

The following list is provided for reference only. The sections that have multi grave lots, the lot number and the position on that lot is given. Remember, this information is a best guess in some cases, although much effort was made to insure its accuracy.
